

MAKO SAMUEL

FRONT-END WEB DEVELOPER

PERSONAL PROFILE

I am a freelance front-end and UI/UX designer for 3 years and I had to work as a freelance backend developer on several projects. I am now looking for a full stack web mission, for more professional experience.

LANGUAGES

French - Level C2

English - Level B1

PROJECTS

Uncle.do | October 2021

-Python, Postgresql, Flask, HTML/CSS
-A small and easy to use to-do list application. Built with ReactJS and Tailwindcss.

<https://github.com/Uncle-Sam-Mako/uncle.do>

Fyyur | August 2022

-Python, Postgresql, Flask, HTML/CSS
-A music website for booking artists that facilitates the discovery and booking of shows between local artists and venues.

<https://github.com/Uncle-Sam-Mako/Fyyur-Project>

Trivia-App | September 2022

-Python, Postgresql, Flask, ReactJS
-It is a quiz application integrating a REST API, allowing from the front-end to retrieve, add and delete questions from the database.

<https://github.com/Uncle-Sam-Mako/Trivia-App>

Wikifilm | April 2021

-HTML/CSS, Javascript
-Wikifilm is a small website to find information about movies. All information is obtained through an external API: TMDB API.
